

Addendum #5

1. What are the pain areas in existing WCMS – Drupal 8?
I don't think we have any issues with Drupal, we would like a new design. We are open to different CMS options.
2. Will the theme (Templates) be uniform throughout www.sandburg.edu i.e. including.
Currently they are all the same, but I think there is a need to have a few other templates for special pages like Library, Corporate Community Ed. And Athletics
Homepage
Other sub-sites and departments
Provide the number of:

Site administrator accounts: 4

eForms: 40

Calendars: 12

PDF documents: 809

Other documents: 15

Images: 1,743

Slide shows: one Flickr slide show

Do they have custom XSL styles & cascading style sheets – If yes, then provide the number: 5

Do they have custom data tables – If yes, then provide the number:

3. What is your not-to-exceed budget for the total project? Don't have a specific amount identified.
4. Any content migration from existing to the new CMS? If Yes, please specify the existing database along with other information. We would want to move information from current website to the new one.
5. Are we migrating the navigation scheme/structure as well? I think most of the navigation will move over, maybe just a few changes.
6. Please provide the count of pages and sub-pages to be migrated (in case any). 1500
7. Please provide the number of servers with their specifications where the CMS is hosted? We host on Media Temple on a dedicated server running Drupal.
8. Where your documents are hosted? Or do you want to keep that file server? They are on the web server
9. Where is the documents and images stored? They are on the web server.
10. What is the total size of the storage? 100Gig
